

and finally...

The Bible itself isn't sacred

Rip one up if you don't believe me, you won't get zapped.

But it contains a record of God speaking, and it points to the Person Jesus...who *is* sacred. He is God.

"In the beginning was the Word, He was with God, He was God."

"And God said...."

"The Word of the Lord came to me, and said..."

Go looking for Jesus, for He said "Seek my face". It's what we need to be doing. The more you look for Him in the scriptures, the more you find Him there, the more like Him you become.
